**MICROBLADING**

Want perfect looking brows everyday? This permanent cosmetics treatment, performed using a manual hand tool, implants pigments into the upper layer of the Dermis. Tiny individual hair strokes are created to mimic the appearance of natural brow hairs for a natural and realistic effect.

**Microblading consultation - 30 mins - £20**

Get all of your questions answered during this 30 minute consultation. The fee of £20 is redeemable against the full Microblading treatment. This is normally done as part of your initial treatment, but can be done separately if you prefer. Eyebrow shape, style and colour will be discussed in great detail to determine the look you are trying to achieve. We will never begin the tattoo process until you are completely happy with what they are going to look like.

**Microblading - 120 mins - £345**

Using a state of the art microblading tool, tiny precision hair strokes are created by hand, mimicking the natural direction and lengths of your brows. Pigments are then implanted into the channels created by the microblades in the dermal layer of the skin. As the pigment is new to your skin, the eyebrows will look approximately 50% darker than the colour you selected during the consultation. This is perfectly normal and the colour will start to fade in 3-4 days.

A top-up session will be needed around 4-12 weeks later to ensure even coverage of pigment.

**The Top-up 60 minutes**

A second appointment is needed 4-12 weeks after your first treatment. This is usually a 30-60 minute appointment to add more pigment to the brow area. This is because, as the area is healing, some parts may not 'hold' as well as others and you may have a few patches that need more colour. This is completely normal and everyone heals differently. Whatever the case, we advise you always come back to salon for your retouch.

**Colour Boost - 60 Minutes - £175**

Recommended 12 - 18 months after your initial Microblading treatment to keep your eyebrows looking perfect.
